HOUSE MAJORITY WHIP
KENNY RAPIER

COMMONWEALTH OF KENTUCKY
GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

305 STATE CAPITOL
(502) 564-7756

August 7, 1990

Hon. William K. Reilly, Administrator
Environmental Protection Agency
401 M Street, N. W.
Washington, D. C. 20460

Dear Mr. Reilly:

Air pollution is a major problem in our area and throughout the country. It is therefore crucial that every effort be made to explore ways to improve air quality. It has come to my attention that a gasoline performance additive called HiTec 3000 may play a role in reducing automotive emissions.

This additive seems to significantly reduce smog-producing nitrogen oxide, as well as overall tailpipe emissions. I understand that the additive is readily available and compatible with the reformulated fuels being considered for widespread use in this country.

It is of the utmost importance that we find ways to reduce air pollution, and this additive may be part of the answer. I hope that the Environmental Protection Agency gives HiTec 3000 prompt consideration for use in this country.

Sincerely,

Kenny Rapier
